

Backflow Test Kit - Calibration and Certification*

Smith Instrument's NIST traceable calibration facilities provide calibration and certification of all the major manufacturers of Backflow Preventer Test Kits.

Calibration and Certification Includes:

- Evaluation
- Adjust and Calibrate Gauge to manufacturers original specifications
- Provide Certificate with "as found" and "as Left" data traceable to NIST
- Tagging
- Normal Turnaround time is 1 to 2 days

Certification Cost: \$79.00 each**

** Does not include the cost of replacement parts, repairs or outbound freight

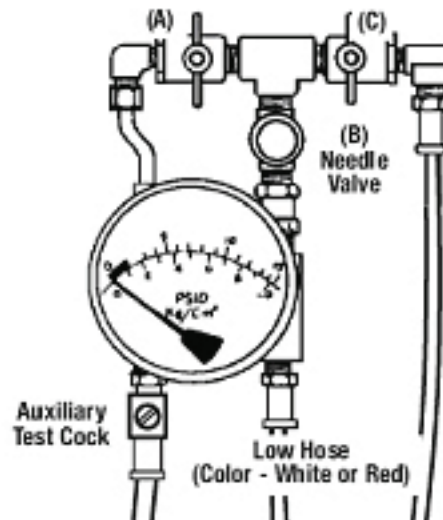

Manufacturers include: Watts, Febco, Ames, Gage-It, Conbraco, Apollo, Orange Research, Mid-West Instrument, Duke-Barton, Zurn-Wilkins

To get your test kits calibrated & certified, send them to either address below, drop it off at your nearest J.O. Galloup/Smith Instrument location or call us for pickup.

Make sure that you include Your Name, your Company Name, Address, Phone and Fax.
