

## TRY GORE™ EXPANDED PTFE SEALANTS

Try something new from GORE™ before June 30, 2008

- We'll pay the shipping
- You'll be registered to win one of two GORE-TEX® Zero Restriction Golf Jackets

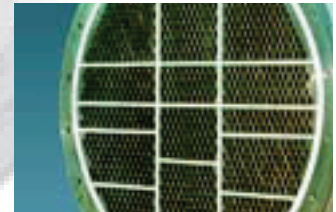

### What do I need to do?

When you place your order, simply mention "Zero Restriction" and you'll automatically be registered for the drawing. You may place your order through our Fluid Sealing Division or with any Galloup location.

GORE™ sealants are among the world's tightest chemically resistant gaskets. Made from 100% expanded PTFE, GORE™ gaskets are suitable for use throughout the entire pH range, except molten alkali metals, and elemental fluorine. They withstand temperatures from -450 to 600 deg F, making them ideal for demanding applications and a labor saver for your day to day sealing needs.

### Sealing Solutions Include

**Gasket Tape, Sheet Gaskets & Gasket Material, Joint Sealant, Universal Gaskets, Low Torque Gaskets, Long Lasting Replacement Pump Diaphragms and Valve Stem Packing - Try our solutions today!**

GORE™ and GORE-TEX® are registered trademarks of W. L. Gore Associates.
